Dear Boris:

Thank-you so much for being a part of our Appian VETERANS Affinity Group Summer Event. You delivered on your promise of being interesting, entertaining, and relevant. We appreciate the time the event organizers spent with you prior to the event getting to know each other, and the obvious time you spent on your own researching our company in order to modify your approach to meet our unique needs.

Your setup for the Virtual session was crisp and your delivery polished. You also came across quite authentic which is critical to make connections with the audience.

We look forward to crossing paths with you in the future and wish you fair winds and following seas.

Sincerely,

Terri McCormick
